CLINICAL CRITERIA: Check below all that apply. All criteria must be met for approval. To support each line checked, all documentation, including lab results, diagnostics, and/or chart notes, must be provided or request may be denied.

Authorization Criteria

- ❑ Member is pre-menopausal
- ❑ Member is 18 years of age or older
- ❑ Member has a diagnosis of Hypoactive Sexual Desire Disorder (HSDD) with symptoms (e.g., low sexual desire that causes marked distress or interpersonal difficulty) that have persisted for at least 6 months
- ❑ Member's HSDD is **NOT** related to any other medical or psychiatric condition, substance abuse or relationship issue
- ❑ Member does **NOT** have any degree of hepatic impairment

(Continued on next page)

- Member is **NOT** using moderate or strong CYP3A4 inhibitors concomitantly (e.g., ciprofloxacin, clarithromycin, diltiazem, fluconazole, itraconazole, ketoconazole, ritonavir, verapamil)
- Provider attests to having counseled the member regarding the interaction with alcohol and Addyi, and the increased risk of hypotension and syncope

Not all drugs may be covered under every Plan.

If a drug is non-formulary on a Plan, documentation of medical necessity will be required.

****Use of samples to initiate therapy does not meet step edit/ preauthorization criteria.****

****Previous therapies will be verified through pharmacy paid claims or submitted chart notes.****
