

AvMed Business Extras

Payroll Solutions

AvMed Health Plans has partnered with Ceridian to provide you, the employer, with Payroll Solutions. These solutions provide the core elements you need to ensure accurate, on-time payroll including all your tax filing and funds transfer needs. Payroll services are offered with the choice of submission by phone, fax or Internet, allowing you to choose how and when you want to work.

Services include:

- Payroll Preview- giving you the ability to see your payroll results and totals in minutes, before you transmit the information to Ceridian. This eliminates errors. Other standard features include check signing and sealing, earnings registers and standard management reports.
- Tax Service- provides the deposit of federal state and local taxes, quarterly and annual filing and reconciliation reports.
- Tax Online- allows you to access your tax information any time via a secure Internet connection.
- Ceridian Check and Ceridian Direct Deposit- help to relieve you of the burden of multiple payroll reconciliation, reduce banking fees and provide a measure of security against fraudulent, stolen or misplaced checks.
- Flexible Reporting - allows you to choose from a wide range of standard payroll and HR reports, or create custom reports. Save the report criteria for future use, so you can easily recreate updated reports for use in many business management and planning applications.

The AvMed Health Plans and Ceridian Partnership Program

AvMed Health Plans joined with Ceridian to offer payroll and select human resources solutions to businesses of all sizes. This program expands the suite of services we offer clients.

Ceridian is a leading multinational company that provides payroll and human resources solutions to more than 125,000 companies serving over 22 million employees worldwide.

Ceridian's mission is to provide employers with the most comprehensive HR solutions, helping our customers maximize the value of their people and focus on their business objectives.
