Program Highlights

The AvMed- New Century Health (NCH) Cardiology Quality Management (CQM) program strives to work with physicians to deliver quality patient care and streamline the complex administrative process associated with cardiovascular pre-authorizations. The program includes benefits such as peer-to-peer discussions with cardiologists who have the understanding and background to discuss treatment regimens on a consultative basis. It also provides significant administrative benefits to help expedite the authorization review process.

Below are some key features offered by the AvMed-NCH CQM program:

- Internet/web provider portal access available 24/7/365 through https://my.newcenturyhealth.com offering the following functionalities:
  - Eligibility for real-time authorizations when selecting evidence-based NCH treatment care pathways
  - Reduced documentation requirements
  - Access to real-time status of authorization requests
  - Member eligibility verification

- Fax authorization requests: One (1) submission form per date of service
- Authorization support staff available at 1-888-999-7713, Option 1, Monday – Friday (8 am-5 pm EST)
- Peer-to-peer consultations with Cardiologists
- Access to nationally-recognized, evidence-based treatment guidelines
- An NCH provider representative to provide support as needed

Our team of clinical and administrative professionals is committed to providing a high degree of service and support throughout the CQM program. AvMed is excited to work with you and NCH to develop innovative ways to continuously improve the provider experience and quality of patient care.
AvMed provider submits Cardiovascular Treatment Request ("CTR") to New Century Health via the following:

- **NCH provider web portal**
  - [https://my.newcenturyhealth.com](https://my.newcenturyhealth.com)
  - Real time authorization issued when NCH preferred clinical pathways are selected.

- **Fax CTR form to New Century Health at 1-877-624-8807**

- **Telephonic Intake**
  - Call NCH at 1-888-999-7713, Option 1.
  - Signed CTR form is required for processing.

If request does not meet clinical guidelines, additional information will be requested, and/or a peer-to-peer conversation will take place.

If an agreement cannot be reached with requesting provider, NCH will forward request to AvMed as a Recommended Adverse Determination (RAD).

Clinical management options outside of NCH pathways will be reviewed against nationally-recognized, evidence-based guidelines in cardiovascular disease by an NCH Medical Reviewer.

NCH authorization issued to requesting provider.
Frequently Asked Questions (FAQs)
