

Atrial Appendage Closure

Origination: 07/17/08	Revised:	Annual Review: 11/3/2016
------------------------------	-----------------	---------------------------------

Purpose:

The Medical Technology Assessment Committee will review published scientific literature and information from appropriate government regulatory bodies (when available) related to Atrial Appendage Closure in order to determine inclusion in the benefit plan.

Compliance Status:

- Centers for Medicare & Medicaid Services (CMS)

Recommendation:

A recommendation was made by the MTAC following discussion by committee members based on current literature:

- *Percutaneous Left Atrial Appendage Occlusion (PLAATO)* is approved for Commercial Members (it is already approved by CMS for Medicare Advantage Members) who meet the following criteria:
 - 1) Performed by trained physicians at facilities acknowledged by CMS as Centers of Excellence;
 - 2) Atrial fibrillation not related to valvular disease;
 - 3) Failed one (1) attempt at cardioversion;
 - 4) Contraindicated or failed Coumadin treatment;
 - 5) No thrombi in the left atria;
 - 6) Ejection fraction greater than 35%.

Disclaimer Information:

Coverage Issues Guidelines and Medical Technology Assessment Recommendations are developed to determine coverage for AvMed's benefits, and are published to provide a better understanding of the basis upon which coverage decisions are made. AvMed makes coverage decisions using these guidelines, along with the Member's benefit document. The use of this guideline is neither a guarantee of payment nor a final prediction of how specific claim(s) will be adjudicated.
