

Medical Preferred Drug List

Effective 1/1/2022 for Commercial Members

The Medical Preferred Drug List encourages utilization of clinically appropriate and lower net cost products within the following therapeutic drug classes. The Medical Preferred Drug List includes the listed products only and any other product may be available under a plan's medical benefit.

The listed preferred products must be used first. An exception process is in place for specific circumstances that may warrant a need for a non-preferred product.

Drug Class	Preferred Product(s)	Non-Preferred Product(s)*
Acromegaly	Sandostatin LAR Somatuline Depot	Signifor LAR Somavert
Alpha-1 Antitrypsin Deficiency	Prolastin-C	Aralast Glassia Zemaira

*Non-preferred product(s) are only available if process exception criteria are met.

This list indicates the common uses for which the drug is prescribed. Some medicines are prescribed for more than one condition. This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with CVS Caremark. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. Listed therapeutic classes and specific drug preferred designations are subject to change based on new drug launches, product approvals, drug withdrawals and other market changes.
