I. ABOUT AVMED

State of Florida employees are not required to choose a Primary Care Physician (PCP) and do not need a referral to see a specialist. Even though your benefit plan does not require a designated PCP, AvMed encourages you to select one who will coordinate your care.

Primary Care Physicians are identified in this directory by specialty. The first time you call an office, be sure to ask what age groups the doctor sees.

- Family Practice – for all family members
- General Practice – for all family members
- Internal Medicine – for adults
- Obstetrics/Gynecology* – for women and adolescent girls
- Pediatrics – for children

	PCP	In/Out Network	Authorization	Referral
State of Florida	No PCP required, but encouraged	Worldwide emergency coverage	No authorization required for routine services*	No referrals required for specialist visits

*Routine services do not require prior notice or authorization. The following services do require prior authorization:

- All inpatient care
- Observation care
- Skilled nursing facility
- Hospice
- Dialysis
- All transplant services
- Certain covered drugs, including injectables
- Diagnostic tests such as MRI, CT and PET Scans

*Different plans have different requirements; please refer to the Summary of Benefits or Certificate of Coverage for specific benefit referral/authorization information. Should you have any questions, please contact our Member Engagement Center toll-free at **1-888-762-8633 (TTY 711)**.

II. ACCESSING CARE

The Role of Primary Care Physician (PCP)

The role of a PCP is to provide routine and preventive care as well as to assist you in making important medical decisions. Your PCP should know your medical history and can be a valuable resource for information and treatment. Your plan may not require a designated Primary Care Physician, but AvMed encourages you to select a PCP who will coordinate your care.

Choosing a PCP and Changing a PCP

Primary Care Physicians can perform physicals, see you for most of your healthcare needs and help coordinate care if you need to see specialists or access behavioral healthcare. Each covered member of your family may select the same or a different Primary Care Physician. You can find a list of doctors in this Provider Directory or on AvMed's Website at **www.AvMed.org/State**.

Visits to Specialist Providers

Primary Care Physicians know your medical history and is best qualified to determine when your care requires specialist involvement.. With most HMOs, a referral is required for a visit to specialists. Depending on your plan, certain services require prior authorization from AvMed.

Cost Calculator

AvMed Cost Calculator enables you to see the total cost of a procedure before you schedule an appointment. This unique tool helps you evaluate providers and prices in advance to determine the best value. It is free to AvMed Members. To learn more, visit **AvMed.org** or call AvMed's Member Engagement Center at the number listed on your AvMed Member ID Card.

Referral/Authorization Process

- **How to get a referral**

A referral is coordinated through your Primary Care Physician (PCP) and the referring specialist/physician. If your health plan requires a referral, your PCP's office will take care of this for you.

- **How to get an authorization**

An authorization is coordinated through your physician and your health plan. It is a formal process requiring a provider to obtain prior approval from the patient's health plan before providing a particular service or procedure.

Emergency, Urgent Care and Retail Clinic Options

Talk to your doctor about what to do if you need immediate medical care. Be sure to discuss after-hour care, weekend accessibility, and whether there is another number you can call for service. If your doctor isn't available or if an accident or injury calls for immediate attention, you should know your options. Knowing the difference can save you time, money and stress.

What is an Emergency?

If you have an emergency-your condition is life-threatening; loss of consciousness; sudden, sharp abdominal pain; uncontrolled bleeding; complicated fractures-you should go to the nearest hospital or call 911 for emergency medical assistance. You may be responsible for a portion of the cost and non-covered supplies or services (refer to your Benefit Summary for more information). For a detailed definition of an emergency please refer to your Group Medical and Hospital Service Contract (Certificate of Coverage) or Summary Plan Description.

Urgent Care Center Know where they are	Emergency Room Know how to get there fast	Ambulance Call 911	Retail Clinic Basic medical care
• Ear Infections • Minor cuts • Fever	• Sudden, sharp, abdominal pain • Uncontrolled bleeding	• Chest Pain • Difficulty breathing • Loss of consciousness	• After hours, weekends, when the doctor can't fit you in

- **Urgent Care Center**

If you encounter a minor medical emergency-sprained ankle, minor cuts or high fever-an Urgent Care Center (UCC) may be a more convenient and often more cost-effective alternative to the emergency room. The facilities handle non-emergency visits during and after regular physician office hours. Most are open seven days a week, with extended hours and do not require an appointment. They are staffed with qualified physicians and offer a wide array of healthcare services, including radiology, laboratory, pharmacy and procedure rooms for lacerations and fracture care.

AvMed currently contracts with a number of UCCs throughout the state. For a complete list of Urgent Care Centers in your area refer to the Provider Directory or visit our website at www.AvMed.org/State.

- **Retail Clinic Care**

Another option is Retail Clinic Care, staffed by board-certified practitioners (nurse practitioners and/or physician assistants). A clinic can be a convenient and affordable choice offering quality, basic medical care after hours, on weekends and when your doctor's office can't get you in.

- No appointment needed
- Open seven days a week
- Pay your applicable PCP copayment, coinsurance or deductible

To find a participating clinic near you, access AvMed's Website at www.AvMed.org/State. Follow the instructions under **Find a Doctor** on the home page. AvMed's Member Engagement Center is always available to help you. Call 1-888-762-8633 (TTY 711) or email us at Members@AvMed.org.

Hospitalization

Your AvMed Provider must coordinate your hospital stay with AvMed whenever hospitalization or outpatient surgery is required. Certain procedures may require the opinion of a second provider before hospitalization will be authorized for coverage.

Prescription Drug Coverage

If you have Prescription Drug coverage through AvMed, we have a nationwide network of participating pharmacies to serve our Members at home and away. To find participating pharmacies in your plan area and the latest list of covered drugs go to the Provider Directory or visit our website at **www.AvMed.org/State**. For participating pharmacies outside your local plan area, contact our Member Engagement Center. For complete information regarding your pharmacy benefits and formulary requirements, please refer to your Certificate of Coverage, Summary Plan Description, Prescription Drug Benefits Riders and Addenda.

Generics...Real Savings

One of the easiest ways to keep prescription drug expense down is to choose generic medications. Generic drugs are typically sold at substantial discounts. Many people believe that if something costs more, it has to be better quality. In the case of generics, this is not true. The standards of quality are the same for generics as brand-name.

The Food and Drug Administration (FDA) requires that all drugs be safe and effective. When a generic drug product is approved and on the market, it has met the rigorous standards established by the FDA with respect to identity, strength, quality, purity and potency. Generics are very high quality and the cost savings is a benefit to you. A list can be viewed on AvMed's Website at **www.AvMed.org/State**. Click on **Preferred Medication Lists**, located under the login area at the right side of the home page.

III. MEDICAL EXCELLENCE

AvMed Participating Providers

AvMed is committed to quality healthcare. We have a broad network of physicians who work hard to keep you healthy. AvMed contracts with physicians who are in private practice and will see AvMed Members within designated time frames, depending upon the Member's condition. They also agree to certain standards of care for Members in regards to wait times and accessibility. To view AvMed's standards, visit the AvMed Website at **www.AvMed.org/State** and click on ***Find a Doctor***.

Board Certification

AvMed considers Board Certification a significant credential in evaluating physicians. Our network physicians have completed advanced training in an approved hospital residency and/or fellowship program. Requirements for physicians to become Board Certified are established by each specialty board. Our network “Board Certified” physicians are identified within our directory by a star.

AvMed Participating Hospitals, Facilities & Allied Services

AvMed Members have access to one of the most versatile facility networks in the state. It is made up of hospitals, skilled nursing facilities, diagnostic centers, laboratories, ambulatory surgical centers, home health, urgent care centers, pharmacies, vision companies, durable medical equipment providers and much, much more. To be a participating provider for AvMed, healthcare facilities must meet rigorous credentialing standards based on quality. Quality of Care standards are developed by nationally recognized professional organizations. AvMed monitors our provider network closely. We support our providers in their efforts to meet or exceed quality standards.

AvMed complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. AvMed does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.
