

**FEDERAL EMPLOYEE HEALTH
BENEFITS (FEHB)
4-TIER PRESCRIPTION DRUG
FORMULARY**

(Effective October – December 2025)

**PLEASE READ: This document contains information
about some of the drugs we cover in this plan.**

Members must use in-network pharmacies to fill their prescription drugs. Your benefits, drug list, pharmacy network, premium and/or copayments/coinsurance may sometimes change.

INTRODUCTION

This formulary was developed to serve as a guide for prescribers, pharmacists, health care professionals and members in the selection of cost-effective medication therapy. AvMed recognizes that medication therapy is an integral part of effective health management. Due to the vast availability of medication options, a reasonable program for medication selection and use is warranted.

The drugs represented have been reviewed by a National Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. This formulary is reflective of current medical practice as of the date of review.

The information contained in this formulary and its appendices is provided solely for the convenience of medical providers. We do not warrant or assure the accuracy of such information nor is it intended to be comprehensive in nature. This formulary is not intended to be a substitute for the knowledge, expertise, skill, and judgment of the medical provider in his or her choice of prescription drugs. All the information in this formulary is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

National guidelines can be found on the National Guideline Clearinghouse site at www.ahrq.gov/gam/index.html on the websites listed under each therapeutic class and on the sites listed in the WEBSITES section of this publication.

This formulary is a fluid document, which is continually reviewed and modified. This dynamic process does not allow this document to be completely accurate at all times. To accommodate regular changes, an updated electronic version of this formulary is available online at www.avmed.org/prescriptions. AvMed welcomes your input and feedback on the information provided in this document.

PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of an independent National Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an external advisory body of clinical professionals from across the United States. The P&T Committee's voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Employees with significant clinical expertise are invited to meet with the P&T Committee, but no employee may vote on issues before the P&T Committee. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

DEFINITIONS

Brand Medication - A prescription medication that is usually manufactured and sold under a name or trademark by a pharmaceutical manufacturer, or a medication that is identified as a Brand medication by AvMed's Pharmacy Benefits Manager (PBM).

Brand Additional Charge - The additional charge that must be paid if you or your prescriber choose a brand medication when a generic equivalent is available. The charge is the difference between the cost of the brand medication and the generic medication. This charge must be paid in addition to the applicable copayment.

Cost-sharing Medications - Medications, as designated by AvMed, designed to improve the quality of life by treating relatively minor, non-life-threatening conditions. Such medications are subject to coinsurance and coverage is limited

Generic Medication - A prescription medication that has the same active ingredient as a brand medication or is identified as a generic medication by AvMed's Pharmacy Benefits Manager. Generic products approved by the United States Food and Drug Administration (FDA) are just as effective and safe as the brand-name products. Generic medications contain identical active ingredients, have the same indication for use, meet the same manufacturing standards, and are identical in strength and dosage form as brand-name medications.

Maintenance Medication - A medication that has been approved by the FDA, for which the duration of therapy can reasonably be expected to exceed one year.

Participating Pharmacy - A pharmacy (retail, mail service, or specialty pharmacy) that has entered into an agreement with AvMed to provide prescription drugs to AvMed members and has been designated by AvMed as a participating pharmacy

Preferred Medication List - The listing of preferred medications based on clinical efficacy, relative safety, and cost in comparison to similar medications within a therapeutic class. This multi-tiered list establishes different levels of copay for medications within therapeutic classes. As new medications become available, they may be considered excluded until they have been reviewed by the P&T Committee.

Prescription Medication - A medication that has been approved by the FDA and that can only be dispensed pursuant to a prescription according to state and federal law.

Prior Authorization - The process of obtaining approval for certain prescription drugs (prior to dispensing) according to AvMed's guidelines. The ordering prescriber must obtain approval from AvMed. The list of prescription drugs requiring prior authorization is subject to periodic review and modification by AvMed. To initiate a prior authorization, please visit our website at www.avmed.org/prescriptions/ to obtain the appropriate drug authorization request form.

Self-Administered Injectable Medication - A medication that has been approved by the FDA for self-injection and is administered by subcutaneous injection. Prior authorization is required for most self-administered injectable medications, except insulin.

Specialty Medication - A self-injectable or high-cost oral medication approved by the FDA. These medications must be prescribed by a physician and dispensed by either a retail or participating specialty pharmacy, depending on the medication. The co-payment levels for Specialty Medications apply regardless of provider. This means that you may be responsible for the appropriate co-payment whether you receive your Specialty Medication from the pharmacy, at the physician's office or during home health visits. Specialty Medications are limited to a 30-day supply.

Quantity Limit - Medications included in this program allow a maximum quantity per prescription and/or time period for one copay or coinsurance. Quantity limits are developed based upon FDA approved medication labeling and nationally recognized therapeutic clinical guidelines. If your prescription exceeds the quantity limit, prior authorization will be required.

BENEFIT COVERAGE AND LIMITATIONS

This medication formulary is for reference purposes only and does not guarantee nor define benefit coverage and limitations. Many members have specific benefits, which are not reflected in this formulary. You may contact AvMed's Member Engagement Department regarding any coverage questions by calling the number listed on the back of your card. Please note that the formulary process is dynamic and generally changes throughout the year. These changes typically occur due to, but not limited to, the following reasons: approval of new medications, availability of newly approved generics, changes in clinical data, and medication safety concerns. AvMed is not held responsible for payment if either a medication was omitted or included in error, or that a medication was placed at an incorrect tier on this formulary. The following topics may or may not be applicable to individual members depending on member-specific benefit parameters.

Coverage

Your prescription medication coverage includes medications that require a prescription, are filled by a participating AvMed pharmacy, and are prescribed by your provider in accordance with AvMed's coverage criteria. AvMed reserves the right to make changes in coverage criteria for covered products and services. Coverage criteria are medical and pharmaceutical protocols used to determine payment of products and services and are based on independent clinical practice guidelines and standards of care established by government agencies and medical/pharmaceutical societies.

Your retail prescription medication coverage includes up to a 30-day supply of a

medication for the listed copay. In most cases, your prescription may be refilled after 75% of your previous fill has been used and is subject to a maximum of 13 refills per year. Many plans may provide the option to obtain a 90-day supply of a medication at a retail or mail pharmacy for a reduced amount. Please refer to your specific pharmacy benefits.

Your mail-service prescription medication coverage includes up to a 90-day supply of most medications for the listed copay per your prescription benefits. If the amount of medication is less than a 90-day supply, such as a 75-day supply, you will still be charged the listed mail-service copay per your prescription benefits.

Your specialty medication coverage extends to many self-injectable and high-cost oral medications approved by the FDA. These medications must be ordered by a prescriber and dispensed by a retail or specialty pharmacy, depending on the type of medication. The copayment levels for specialty medications apply regardless of provider. This means that you may be responsible for the appropriate copayment whether you receive your Specialty Medication from the pharmacy, at the physician's office or during home health visits. Specialty Medications are limited to a 30-day supply.

Quantity limits are set in accordance with FDA approved prescribing limitations, general practice guidelines supported by medical specialty organizations, and/or evidence-based, statistically valid, clinical studies. This means that a medication-specific quantity limit may apply for medications that have an increased potential for over-utilization or an increased potential for a member to experience an adverse event at higher doses.

Prior Authorization Process

The prior authorization process requires the practitioner to provide information to support the clinical criteria that must be met for approval. The completed drug authorization request form and supporting clinical documentation must be submitted to AvMed by fax to 1-305-671-0200. The pharmacy drug authorization request forms are available at www.avmed.org/prescriptions or www.avmed.org/forms/provider.

Information needed to make coverage determinations of medications requiring prior authorization may include lab values, prescription history, a statement of medical necessity and any other pertinent information to satisfy the established coverage guideline for the requested medication. In most cases, coverage determinations will be made within one business day if authorization is deemed urgent and within three business days if identified as standard or routine.

Member Initiated Prior Authorization Process

Members may request a prior authorization by directly contacting the AvMed Member Engagement Department at the number on their membership card. The member should have the prescriber information (phone number) and any pertinent information related to the request to provide to the Member Engagement Department. Members may also initiate the prior authorization process by logging into www.avmed.org and then clicking the link "Prescriptions".

Quantity Limit Exception

Certain medications allow for a maximum quantity per prescription and/or time period for one copay or coinsurance. Medications with applicable quantity limits are noted on the formulary. Quantity limits are developed based upon FDA-approved medication labeling and nationally recognized therapeutic clinical guidelines. If a prescription exceeds the quantity limit, the prescriber should provide a statement of medical necessity and request a prior authorization for the quantity limit exception as described above.

Step Therapy

Medications that require a trial of one or more first and/or second-line medications for the requested medication to be covered under the pharmacy benefit. If for medical reasons, the member cannot use the first and/or second-line medication, the prescriber should request a prior authorization as described above.

Non-formulary Medication Requests

A request for a non-formulary medication requires documentation from the member's medical records and/or prescription claims history verifying the following: statement of medical necessity; contraindications to ALL other formulary alternatives; or therapeutic failure of adequate trials of one to three months of each and ALL other formulary alternatives. Non-formulary requests may be requested by the prescriber through the prior authorization process as described above.

Clinically Equivalent Drugs (CED)

Clinically Equivalent Drugs (CED) are medications that are clinically comparable to a medication that is already covered on the formulary. For this reason, coverage for a CED medication requires the prescriber to submit clinical documentation to establish medical necessity of the CED medication over comparable the formulary alternative(s). Medications labeled as CED on the formulary will also have a prior authorization requirement.

Tier Description

Each copay tier is assigned an established co-payment, which is the amount you pay when you fill a prescription. Consult your benefit documents to determine your specific co-payments, coinsurance, and/or deductibles that are part of your plan. You and your doctor decide which medication is most appropriate for you.

Tier	Definition
1	Generics - These are preferred generic medications and are in the low to mid-range for out-of-pocket expense. You should always consider Tier 1 medications if you and your doctor decide they are appropriate to treat your condition.
2	Preferred Brands - These are preferred brand or high-cost generic medications and are in the mid to higher range for out-of-pocket expense. Sometimes there are alternatives available in Tier 1 that may be appropriate to treat your condition. If you are currently taking a Tier 2 medication, ask your doctor whether there are lower copayment alternatives that may be right for your treatment.
3	Non-Preferred Brands - These are non-preferred brand or non-preferred generic medications and are in the higher range for out-of-pocket expense. Sometimes there are alternatives available in Tier 1 or Tier 2 that may be appropriate to treat your condition. If you are currently taking a Tier 3 medication, ask your doctor whether there are lower copayment alternatives that may be right for your treatment.
4	Specialty Medications - These are brand or generic-name specialty medications or high-cost medications and are typically the highest out-of-pocket expense. Distribution of specialty medications is limited to our specialty pharmacy.
9	Zero Cost Share Preventative Drugs - These are drugs covered under the Patient Protection and Affordable Care Act (PPACA) at no cost-share (\$0), to you.

*Please note that **Brand** products are listed in CAPITALS and **Generic** products are listed in *lowercase italics*.

What's Not Covered: Common Exclusions

Certain items may be excluded from your pharmacy benefit coverage. Prior authorization is generally not available for medications specifically excluded by benefit design. Commonly excluded products may include, but are not limited to:

- Over-the-counter (OTC) medications or their equivalents unless otherwise specified in the medication formulary listing.
- Experimental medication products or any medication product used in an experimental manner.
- Foreign medications or medications not approved by the United States Food and Drug Administration (FDA).
- Replacement prescription drug products resulting from a lost, stolen, expired, broken, or destroyed prescription order or refill, unless otherwise specified in the member's specific benefit plan.
- Fertility drugs, unless otherwise specified in the member's specific benefit plan.
- Medications or devices for the diagnosis or treatment of sexual dysfunction, unless otherwise specified in the member's specific benefit plan.
- Dental-specific medications, including fluoride medications for adults.
- Prescription and non-prescription vitamins and minerals, except prenatal vitamins.
- Nutritional supplements and Medical Foods.
- Cosmetic products, including, but not limited to, hair growth, skin bleaching, sun damage and anti-wrinkle medications.
- Prescription and non-prescription appetite suppressants and products for the purpose of

weight loss, unless otherwise specified in the member's specific benefit plan.

- Compounded prescriptions, except pediatric preparations.
- Pharmaceuticals that would be covered under the medical benefit. These may include, but are not limited to, immunizations, allergy serums, medical supplies (including therapeutic devices, dressings, appliances, and support garments), medications administered by the attending physician to treat an acute phase of an illness, and chemotherapy for cancer patients. Such benefits are covered in accordance with the Group Medical and Hospital Service Contract and may be subject to copay or coinsurance and prior authorization requirements, as outlined on the Schedule of Benefits.

Mandated Generic Substitution

AvMed advocates the use of cost-effective generic medications where FDA-labeled brand-equivalent medications are available. A generic medication is approved by the FDA once the manufacturer has proven that it has the same active ingredient(s) as the brand-name medication. Generally, generic medications cost less than brand-name medications. If a member or a prescriber requests a brand-name product in lieu of an approved generic, the member, based upon his/her coverage, will typically be required to pay the Non-Preferred Brand Copay plus the Brand Additional Charge.

Health Care Reform – Preventive Medications

The Patient Protection and Affordable Care Act of 2010 allows members to receive some preventative, evidence-based items, and services at no cost to the member with certain stipulations. Examples of categories of medications that may be subject to limited, or \$0 cost share include aspirin, breast cancer preventative, fluoride supplements, folic acid supplements, iron supplements, tobacco cessation products, immunizations, bowel preparation for colonoscopy, and some contraceptive medications and devices.

Some of the limitations for receiving these medications at no cost to the member require that: (1) the medication is covered as part of the prescription benefits, (2) a prescription is required, and (3) this coverage will only apply in a retail pharmacy. As new guidance continues to be released for coverage of preventive medications, the list and/or restrictions will be updated accordingly.

Opioid Medication Management

To combat the national opioid crisis, the Centers for Disease Control and Prevention's (CDC) Guideline for Prescribing Opioids for Chronic Pain updated how health care providers can better manage pain, including safer ways to use opioids. AvMed is taking action based on the CDC guideline to help prevent opioid abuse with our members' utmost safety in mind.

How we help members safely use opioid medication

- Set a coverage limit for up to seven days if you are new to therapy
- Limit opioid medication amounts for new or ongoing therapy covered by your plan
- Ensuring the use of short-acting opioids before using long-acting ones

Balancing risks and benefits

Prescription opioids can manage short-term pain like after a surgery or injury. But they may not work as well in the long-term to manage chronic pain. Plus, you're more likely to overdose or become addicted from using opioids for a long time. And overdose can cause serious health problems or even death. Other treatments like exercise or non-

opioid pain relievers with less serious risks may be an option.

Members should work with their doctor to find the safest ways to best manage their condition.

HOW CAN I SAVE MONEY ON PRESCRIPTIONS?

Always ask your doctor to consider choosing an appropriate medication from the formulary that is on the lower tier selections, such as Tier 1 or Tier 2. Medications within these tiers have the lowest out-of-pocket cost for you. If you are currently taking a Tier 3 or 4 medication, you should consult with your physician to see if there are other medication alternatives that are on a lower tier.

MAIL-SERVICE PRESCRIPTIONS

Some members can order their prescriptions from a mail-service pharmacy. These members can receive up to a 90-day supply of certain medications through the mail for a specified co-payment as outlined in their group benefits plan. Receiving a 90-day supply of medication by mail may prove to be more economical for you. The convenience of mail service may also help you stay compliant with your medications. Simply ask your prescriber to write the prescription(s) for a 90-day supply and submit it with your mail-service request forms to the address listed on the form. Medications ordered and processed through mail service are typically mailed to the member via U.S. regular mail. You should allow up to 14 days for delivery from the time the mail service receives the request. (Note: Per federal and/or state law, some controlled substance medications are not available through mail service, except for some Schedule III, IV and V medications.) Prescriptions submitted to mail service for less than a 90-day supply may be returned to the member.

MEDICATIONS PRE-PACKAGED AS A 90-DAY SUPPLY

Our pharmacy benefit covers some medications that are pre-packaged, dispensed and sold as a 90-day supply. Members who are prescribed these medications will be charged the applicable tier co-payment for a 90-day supply whether the prescription is filled at retail or through the mail-service option. Examples of medications packaged as 90-day supplies include: Estrin, Femring, and Seasonique. Please consult our website for an up-to-date list of medications or call Member Engagement at the number on the back of your card for more information on coverage.

CONTACT INFORMATION

This formulary is designed to assist prescribers, members, and other health care professionals in the selection of cost-effective medications. AvMed encourages your input and feedback on how we can assist in improving this document and the formulary management process. You may contact AvMed's Member Engagement Department by calling the number listed on the back of your card. For additional information, please visit our website at: www.avmed.org/prescriptions.

List of Abbreviations

1: Generics

2: Preferred Brands

3: Non-Preferred Brands

4: Specialty Medications

9: Affordable Care Act Drug (ACA) - \$0 copay

ACA: Affordable Care Act (ACA) preventive prescription drugs and over the counter items identified as an A or B recommendation by the United States Preventive Services Task Force. Please use this link for a list of covered preventive care services: healthcare.gov/what-are-my-preventive-care-benefits.

CGM: Continuous Glucose Monitor

LA: Limited Availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.

OTC: Over the Counter. An OTC drug is a non-prescription drug.

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

SP: Specialty Drug

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

<i>cefactor oral suspension for reconstitution 125 mg/5 ml, 250 mg/5 ml, 375 mg/5 ml</i>	1	
<i>cefactor oral tablet extended release 12 hr</i>	2	
<i>cefadroxil oral capsule</i>	1	
<i>cefadroxil oral suspension for reconstitution 250 mg/5 ml, 500 mg/5 ml</i>	1	
<i>cefadroxil oral tablet</i>	1	
<i>cefdinir</i>	1	
<i>cefixime</i>	2	
<i>cefpodoxime</i>	1	
<i>cefprozil</i>	1	
<i>cefuroxime axetil oral tablet</i>	1	
<i>cephalexin oral capsule 250 mg, 500 mg</i>	1	
<i>cephalexin oral capsule 750 mg</i>	2	
<i>cephalexin oral suspension for reconstitution</i>	1	
ERYTHROMYCINS & OTHER MACROLIDES		
<i>azithromycin oral</i>	1	
<i>clarithromycin</i>	1	
DIFICID ORAL SUSPENSION FOR RECONSTITUTION	3	PA; 100 ml per fill
DIFICID ORAL TABLET	3	PA; 20 tablets per fill
<i>e.e.s. 400 oral tablet</i>	1	
<i>ery-tab oral tablet, delayed release (dr/ec) 250 mg, 333 mg</i>	2	
<i>erythrocin (as stearate) oral tablet 250 mg</i>	2	
<i>erythromycin ethylsuccinate oral suspension for reconstitution</i>	2	PA for age 18 and older
<i>erythromycin ethylsuccinate oral tablet</i>	1	
<i>erythromycin oral capsule, delayed release (dr/ec)</i>	1	

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

Drug Name	Drug Tier	Requirements / Limits
<i>erythromycin oral tablet</i>	2	
<i>erythromycin oral tablet, delayed release (dr/ec)</i>	2	
<i>fidaxomicin</i>	2	PA; 20 tablets per fill
MISCELLANEOUS ANTIINFECTIVES		
<i>albendazole</i>	2	4 tablets per fill
ALINIA ORAL SUSPENSION FOR RECONSTITUTION	3	PA; QL (180 per 1 day)
<i>amikacin injection solution 1,000 mg/4 ml, 500 mg/2 ml</i>	1	
ARIKAYCE	4	PA; SP; LA; QL (8.4 per 1 day)
<i>atovaquone</i>	2	
<i>atovaquone-proguanil</i>	2	
BENZNIDAZOLE	3	PA
CAYSTON	4	SP; LA
<i>chloroquine phosphate</i>	1	
<i>clindamycin hcl</i>	1	
<i>clindamycin pediatric</i>	1	
COARTEM	3	
<i>cycloserine</i>	2	
<i>dapsone oral</i>	1	
EMVERM	3	PA; 2 tablets per fill
<i>ethambutol</i>	1	
<i>hydroxychloroquine</i>	1	
<i>isoniazid oral</i>	1	
<i>ivermectin oral tablet 3 mg</i>	1	PA; QL (20 per 90 days)
KRINTAFEL	3	QL (2 per 365 days)
LAMPIT	3	PA
<i>linezolid</i>	1	
<i>mefloquine</i>	1	
<i>metronidazole oral tablet 250 mg, 500 mg</i>	1	
<i>neomycin</i>	1	
<i>nitazoxanide</i>	2	PA; QL (6 per 1 day)
<i>pentamidine inhalation</i>	2	
<i>praziquantel</i>	2	
PRETOMANID	3	PA; QL (1 per 1 day)

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

Drug Name	Drug Tier	Requirements / Limits
PRIFTIN	3	QL (8 per 1 day)
<i>primaquine</i>	1	
<i>pyrazinamide</i>	2	
<i>pyrimethamine</i>	4	PA; SP; QL (3 per 1 day)
<i>quinine sulfate</i>	2	
<i>rifabutin</i>	2	
<i>rifampin oral</i>	1	
SIVEXTRO ORAL	4	SP
<i>tinidazole</i>	1	
TOBI PODHALER	4	ST; SP
<i>tobramycin in 0.225 % nacl</i>	4	SP
<i>tobramycin inhalation</i>	4	SP
XIFAXAN ORAL TABLET 200 MG	3	QL (9 per 365 days)
XIFAXAN ORAL TABLET 550 MG	3	PA; QL (42 per 120 days)
PENICILLINS		
<i>amoxicillin oral capsule</i>	1	
<i>amoxicillin oral suspension for reconstitution</i>	1	
<i>amoxicillin oral tablet</i>	1	
<i>amoxicillin oral tablet, chewable 125 mg, 250 mg</i>	1	
<i>amoxicillin-pot clavulanate</i>	1	
<i>ampicillin oral capsule 500 mg</i>	1	
<i>dicloxacillin</i>	1	
<i>penicillin v potassium</i>	1	
QUINOLONES		
<i>ciprofloxacin hcl oral tablet 250 mg, 500 mg, 750 mg</i>	1	
<i>levofloxacin oral solution</i>	2	
<i>levofloxacin oral tablet</i>	1	
<i>moxifloxacin oral</i>	2	
<i>ofloxacin oral tablet 300 mg, 400 mg</i>	1	
SULFA'S & RELATED AGENTS		
<i>sulfadiazine</i>	2	
<i>sulfamethoxazole-trimethoprim oral</i>	1	
<i>sulfatrim</i>	1	

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

Drug Name	Drug Tier	Requirements / Limits
TETRACYCLINES		
<i>avidoxy</i>	1	
<i>demeclocycline</i>	1	
<i>doxycycline hyclate oral capsule</i>	1	
<i>doxycycline hyclate oral tablet 100 mg, 20 mg</i>	1	
<i>doxycycline monohydrate oral capsule 100 mg, 50 mg</i>	1	
<i>doxycycline monohydrate oral suspension for reconstitution</i>	1	
<i>doxycycline monohydrate oral tablet 100 mg, 50 mg</i>	1	
<i>minocycline oral capsule</i>	1	
<i>monodoxyne nl oral capsule 100 mg</i>	1	
<i>tetracycline oral capsule</i>	1	
URINARY TRACT AGENTS		
<i>methenamine hippurate</i>	2	
<i>methenamine mandelate</i>	2	QL (4 per 1 day)
<i>nitrofurantoin macrocrystal oral capsule 100 mg, 50 mg</i>	1	
<i>nitrofurantoin macrocrystal oral capsule 25 mg</i>	2	
<i>nitrofurantoin monohyd/m-cryst</i>	1	
<i>nitrofurantoin oral suspension 25 mg/5 ml</i>	2	
<i>trimethoprim</i>	1	
VANCOMYCIN		
<i>vancomycin oral capsule</i>	2	
ANTINEOPLASTIC & IMMUNOSUPPRESSANT DRUGS		
ADJUNCTIVE AGENTS		
<i>leucovorin calcium oral tablet 10 mg, 15 mg, 25 mg</i>	2	
<i>leucovorin calcium oral tablet 5 mg</i>	1	
VISTOGARD	4	SP
ANTINEOPLASTIC & IMMUNOSUPPRESSANT DRUGS		
<i>abiraterone oral tablet 250 mg</i>	4	PA; SP; QL (4 per 1 day)
<i>abirtega</i>	4	PA; SP; QL (4 per 1 day)
AKEEGA	4	PA; SP; QL (2 per 1 day)

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

Drug Name	Drug Tier	Requirements / Limits
ALECENSA	4	PA; SP; QL (8 per 1 day)
