It is the policy of SFHC and its Affiliates to encourage the communication of bona fide concerns relating to the lawful and ethical conduct of business, and audit and accounting procedures or related matters. It is also the policy of SFHC and its Affiliates to protect those who communicate bona fide concerns from any retaliation for such reporting.

Confidential and anonymous mechanisms for reporting concerns are available and are described in the Code. However, anonymous reporting does not serve to satisfy a duty to disclose your own potential involvement in a conflict of interest or in unethical or illegal conduct.

The Code is part of a broader set of policies and compliance procedures described in greater detail in SFHC and its Affiliates' employee manuals and distributed memoranda. The Code is not intended to supersede or materially alter specific policies and procedures already in place and applicable to particular employees as set forth in the employee manuals and distributed memoranda, and communicated to employees.

No policy can provide definitive answers to all questions. It is difficult to anticipate every decision or action that you may face or consider. **Whenever there is doubt about the right ethical or legal choice to make, or questions regarding any of the standards discussed or policies referenced in the Code, you should fully disclose the circumstances, seek guidance about the right thing to do, and keep asking until guidance is obtained.**

Those who violate the standards in the Code shall be subject to disciplinary action. Failure to follow the Code, as well as to comply with federal, state, local and any applicable foreign laws, and the policies and procedures of SFHC and its Affiliates may result in termination of employment or termination of board service.

CORPORATE POLICY

It is the policy of SFHC and its Affiliates that Covered Persons conduct all business affairs and relationships with others with honesty, integrity and high ethical standards. In order to provide standards of appropriate conduct for Covered Persons, the Boards of Directors of SFHC and its Affiliates have adopted the Code.

INTRODUCTION

The ability of SFHC and its Affiliates to function as respected members of the business community rests solely on the trust and confidence that our members, patients, residents, providers, regulators and other persons with whom we do business have in our organization. That confidence is earned, on a daily basis, when we conduct business with integrity and have a culture that encourages the highest ethical standards. SFHC and its Affiliates have established and adopted the following professional standards as a component of its Corporate Compliance

Program to reflect the requirements of federal, state and local laws and regulations. The Boards of Directors have designated the Chief Compliance Officer as the individual within the organization responsible for overall implementation and operation of the Corporate Compliance Program.

All Covered Persons are required to adhere to the standards as set forth in the Code and for ensuring their behavior and activities are consistent with the Code. SFHC and its Affiliates have prepared this Code to help Covered Persons understand what is expected of them in the workplace and as representatives of SFHC and its Affiliates. These standards apply to everyone, at every level of the organization. Covered Persons shall be asked to confirm, in writing, receipt of the Code and an understanding of its content. In addition, there are a number of more detailed and specific procedures covering particular departments or compliance subjects published in Policies and Procedures manuals of SFHC and its Affiliates. Those specific procedures shall be communicated to personnel who are particularly affected by them and who must comply with them in the normal course of business.

If you have any questions about the Code, please contact the Chief Compliance Officer or his or her designee.

STANDARDS OF CONDUCT

Legal Compliance

SFHC and its Affiliates shall strive to ensure that all activity by or on behalf of the organization is in compliance with applicable federal, state and local laws and regulations. The following standards are intended to provide guidance to Covered Persons that shall assist them in their obligation to comply with these laws and regulations. These standards are neither exclusive nor complete.

- 1) SFHC and its Affiliates are diligent in their efforts to provide frequent and comprehensive updates to Covered Persons addressing recent legislative or regulatory changes that may impact the operations of the SFHC and its Affiliates. Covered Persons are expected to stay abreast of any changes that may impact their departmental operations and to make adjustments as necessary to be in compliance with new or revised legislation.
- 2) SFHC and its Affiliates expect Covered Persons to refrain from any conduct that may violate state and federal fraud, waste and abuse laws. These laws prohibit, at a minimum:
 - a) Direct, indirect, or disguised payments in exchange for the referral of patients;
 - b) The submission of false, fraudulent or misleading claims to any government entity or third party payor, including claims for services not rendered, claims which characterize the service differently than that actually rendered, or claims which do not otherwise comply with applicable program or contractual requirements; and
 - c) Making false representations to any person or entity in order to gain or retain participation in a program or to obtain payment for any service.

- 3) All Covered Persons are required to comply with all applicable laws and regulations, whether or not they have been specifically addressed by a written policy in this or any other policy manual. SFHC and its Affiliates shall vigorously enforce compliance and shall take corrective action, including termination and legal action as appropriate.
- 4) SFHC and its Affiliates shall ensure that reporting to external agencies, associations, and the public is timely, accurate, honest, and reasonably complete.

Antitrust

While Covered Persons are encouraged to actively participate in local, state and national organizations and forums to advocate for efficient and effective health care for all citizens, it is the policy of SFHC and its Affiliates to conduct all of their activities in full compliance with federal and state antitrust laws. Accordingly, in the course of outside meetings and other industry activities, it is important that Covered Persons refrain from discussing, agreeing, or exchanging information regarding any competitively sensitive information with any person who is a representative or employee, officer or director of any competitor. Such information includes, but may not be limited to:

- 1) Prices or premiums charged for managed care or insurance products or for hospice or senior living services;
- 2) Any increase, decrease or discount in prices for managed care or insurance products or for hospice or senior living services;
- 3) What constitutes a fair price;
- 4) Allocation of customers, patients, residents or enrollees, sales territories, sales of any product, or contracts with providers;
- 5) Refusal to deal with any customer, provider or payor or class or group of customers, providers or payors;
- 6) What products or services shall be offered to members, patients or residents; and
- 7) Other competitively sensitive information, such as information about market share, profits, margins, costs, reimbursement levels or methodologies for reimbursing providers, or terms of coverage.

These same standards of conduct are to be observed at all informal or social discussions at the sites of any public or private meetings or gatherings.

Confidentiality

Covered Persons are in possession of and have access to a wealth of confidential, sensitive and proprietary information regarding the businesses of SFHC and its Affiliates. The inappropriate release of such information could be detrimental to SFHC and its Affiliates, as well as its members, patients, residents, providers, and/or vendors. Every Covered Person has an obligation to actively

protect and safeguard confidential, sensitive and proprietary information in a manner designed to prevent its unauthorized disclosure.

- 1) Covered Persons have an obligation to maintain the confidentiality of member, patient and resident information in accordance with all applicable laws and regulations. Information requiring protection exists in many formats, such as paper, electronic, audio, and video. All copies, formats and versions of confidential information must be maintained in accordance with applicable laws and the policies and procedures of SFHC and its Affiliates. SFHC and its Affiliates assign access to confidential information through a role-based security approach to ensure that only those persons whose positions require it and who have a legitimate need-to-know, have the ability to access confidential information. Covered Persons shall not share passwords or other system access rights with any other person(s), whether or not such persons are affiliated with SFHC or its Affiliates. Covered Persons are instructed to always make sure that any access or use of confidential data is carried out using only the minimum amount necessary. Additionally, Covered Persons shall refrain from revealing any personal or confidential information to third persons unless supported by legitimate business or member, patient or resident care purposes. If the disclosure of information is so supported, Covered Persons shall use or disclose on a need-to-know basis, only the minimum amount necessary to accomplish the task. If questions arise regarding an obligation to maintain the confidentiality of information or the appropriate release of information, Covered Persons should seek assistance from the Chief Compliance Officer or his or her designee.
- 2) Information, ideas and intellectual property assets of SFHC and its Affiliates are important to their success. Information pertaining to competitive position, business strategy, payment and reimbursement information, and information relating to negotiations with third parties or other employees should be protected and shared only with those individuals having a need to know such information in order to perform the responsibilities of their positions with SFHC and its Affiliates.
- 3) Salary, benefit and other personal information relating to Covered Persons shall be treated as confidential. Personnel files, payroll information, disciplinary matters and similar information shall be maintained in a manner designed to ensure confidentiality in accordance with applicable laws.
- 4) Covered Persons shall exercise due care to prevent the unauthorized release or sharing of information. Covered Persons are required to sign a Statement of Confidentiality at the time of hire and on an annual basis thereafter.

Conflict of Interest

"Conflicts of interest" may arise when personal or financial relationships or interests interfere, or have the potential to interfere, with professional roles, responsibilities, or independent judgment. A conflict of interest occurs when there is a divergence between an individual's private interests and his or her professional obligations to SFHC and its Affiliates, such that an independent observer might reasonably question whether the individual's professional

actions or decisions are determined by considerations of personal gain, financial or otherwise. A conflict of interest depends on the situation, and not on the character or actions of the individual.

SFHC and its Affiliates have adopted a Conflicts of Interest Policy & Procedure ("Conflicts of Interest Policy") attached as Exhibit A to the Code and incorporated within the Code. Covered Persons are expected to comply with the provisions of the Conflicts of Interest Policy.

Receipt of Gifts

"Gifts" to Covered Persons from firms or individuals who are conducting, would like to conduct business with, or who are direct competitors of SFHC and its Affiliates raise the potential of conflicts of interest. Gifts to Covered Persons from members, patients or residents raise the potential for improprieties. Gifts include tangible personal property, as well as services, entertainment, promotional premiums on personal purchases of goods or services, advertising or promotional materials, gratuities or any other personal benefit or favor of any kind.

The Conflicts of Interest Policy describes the policies of SFHC and its Affiliates with respect to the receipt of gifts by Covered Persons. Covered Persons are expected to comply with the provisions of the Conflicts of Interest Policy regarding gifts.

Political Activities

Tax exempt organizations, such as SFHC and its Affiliates, are subject to legal limitations on political campaigning and lobbying activities. All such activities on behalf of SFHC and its Affiliates must be conducted in compliance with applicable laws. Accordingly, Covered Persons should not use assets of SFHC or any of its Affiliates to engage in any political activities without prior review by and approval from the Chief Compliance Officer.

Under the Internal Revenue Code, all section 501(c)(3) organizations are absolutely prohibited from directly or indirectly participating in, or intervening in, any political campaign on behalf of (or in opposition to) any candidate for elective public office. Certain activities or expenditures may be permitted depending on the facts and circumstances. For example, certain voter education activities (including presenting public forums and publishing voter education guides) conducted in a non-partisan manner do not constitute prohibited political campaign activity. No SFHC Affiliate which has received recognition under Section 501(c)(3) of the Internal Revenue Code should engage in any type of political activity without first obtaining written approval from the Chief Compliance Officer.

AvMed is a section 501(c)(4) social welfare organization, and is permitted to engage in some political activities, including making independent expenditures in support of federal, state, and local candidates, so long as that is not its primary activity. Notwithstanding AvMed's ability to engage in political activities, AvMed funds cannot be used to make any political campaign contribution related to a federal election (whether to a candidate, political party or political action committee), or to state candidates or political committees in jurisdictions that prohibit corporate contributions since it is against the law. AvMed is permitted by law to use its funds to support the administration of the AHIP political action committee (AHIP PAC), a federally-registered separate segregated fund, which may contribute to federal candidates. Any use of AvMed funds for to provide administrative support to the AHIP PAC, to engage in independent expenditures in

support of federal candidates, or otherwise to support for any state or local political activity must be processed through the Chief Compliance Officer.

Your personal political activity is totally voluntary and contributions to candidates or campaigns should only be made if you freely choose to do so. You should not bundle contributions, violate any provision of federal, state or local campaign finance laws or otherwise suggest that SFHC, AvMed or any other Affiliate endorses your political activity.

Government Contracts

Always remember that the government is a unique customer. While we always conduct our business with the highest degree of integrity and honesty, there are unique rules applicable to government contractors.

When we act as a government contractor, we have a special obligation to the government (along with the public at large) to ensure that we perform that work with the highest degree of integrity. Accordingly, we must all be committed to compliance with not only the letter but also the spirit of the laws and regulations that apply to our government contracting business.

Although all of the standards discussed in this Code are applicable whether the customer is the government or a private entity, particular statutes and regulations apply to government business dealings. For example, under Title 18 of the United States Code, it is a crime to knowingly make a false claim for payment to the government or to knowingly make a false statement to the government. If you falsify data that is submitted to the government, you have committed a crime. This is true even if you are not doing so in an attempt to obtain payment. Both you and the organization could be subject to criminal prosecution for your violation and could be subject to large penalties and fines. In addition, both you, as an individual, and our company, as an organization, could be prohibited, through suspension and debarment or exclusion, from working on government projects in the future.

Relationships with Elected Officials

Special restrictions may apply to recruiting former government personnel and the activities of former government employees retained as employees or consultants. Approval must be obtained from the Chief Compliance Officer before even mentioning possible employment to a current government employee and before retaining any former government employee. Specific procedures dealing with such relationships have been approved by the SFHC and its Affiliates' Boards of Directors and are applicable to SFHC, its Affiliates and employees.

Furthermore, it is the policy of SFHC and its Affiliates to operate under sound and legal employment practices. The objective is to be fair and equitable in the treatment of all employees and in all situations. This includes at least the following:

- 2) Compensation is in accordance with the employee's contribution to SFHC and its Affiliates and compensation decisions shall be made entirely independent of the considerations listed above; and
- 3) SFHC and its Affiliates shall provide a safe and healthy work environment for all employees. SFHC and its Affiliates shall not tolerate any type of harassment – including sexual harassment – in the workplace and shall take appropriate disciplinary action should any instance of harassment be discovered.

Abusive, harassing or other offensive conduct is unacceptable, whether verbal, physical or visual. If you believe that you have been harassed or threatened with or subjected to physical violence in or related to the workplace, you should report the incident to an appropriate supervisor or Human Resources, who shall arrange for it to be investigated. All efforts shall be made to handle the investigation confidentially.
