If you have any questions or need assistance, please call AvMed Member Services at the number listed on your ID card or e-mail us at [members@avmed.org](mailto:members@avmed.org) – whatever’s most convenient for you. Our representatives are available 24 hours a day, 7 days a week. Hearing impaired members may call **877-442-8633**, Monday through Friday, 8:30 a.m. to 5:00 p.m. Explore AvMed’s Web Site for reliable, comprehensive up-to-date, online resources. Go to [www.avmed.org/go/state](http://www.avmed.org/go/state).

Thank you for the opportunity to serve you!

**I. ABOUT AVMED**

State of Florida employees are not required to choose a Primary Care Physician (PCP) and do not need a referral to see a specialist. Even though your benefit plan does not require a designated PCP, AvMed encourages you to select one who will coordinate your care.

Primary Care Physicians are identified in this directory by specialty. The first time you call an office, be sure to ask what age groups the doctor sees.

- Family Practice – for all family members
- General Practice – for all family members
- Internal Medicine – for adults
- Obstetrics/Gynecology\* – for women and adolescent girls
- Pediatrics – for children

|                         | <b>PCP</b>                             | <b>In/Out Network</b>               | <b>Authorization</b>                                   | <b>Referral</b>                                    |
|-------------------------|----------------------------------------|-------------------------------------|--------------------------------------------------------|----------------------------------------------------|
| <b>State of Florida</b> | <b>No PCP required, but encouraged</b> | <b>Worldwide emergency coverage</b> | <b>No authorization required for routine services*</b> | <b>No referrals required for specialist visits</b> |

\*Routine services do not require prior notice or authorization. The following services do require prior authorization:

- All inpatient care
- Observation care
- Skilled nursing facility
- Hospice
- Dialysis
- All transplant services
- Certain covered drugs, including injectables
- Diagnostic tests such as MRI, CT and PET Scans

\*Different plans have different requirements; please refer to the Summary of Benefits or Certificate of Coverage for specific benefit referral/authorization information. Should you have any questions, please contact Member Services toll-free at the number listed on the back of your AvMed ID card.

### **III. ACCESSING CARE**

#### **The Role of Primary Care Physician (PCP)**

The role of a PCP is to provide routine and preventive care as well as to assist you in making important medical decisions. Your PCP should know your medical history and can be a valuable resource for information and treatment. Your plan may not require a designated Primary Care Physician, but AvMed encourages you to select a PCP who will coordinate your care.

#### **Choosing a PCP and Changing a PCP**

Primary Care Physicians can perform physicals, see you for most of your health care needs and help coordinate care if you need to see specialists or access behavioral health care. Each covered member of your family may select the same or a different primary care physician. You can find a list of doctors in this Provider Directory or on AvMed's Web Site at [www.avmed.org/go/state](http://www.avmed.org/go/state).

#### **Visits to Specialist Providers**

Primary care physicians know your medical history. They are best qualified to determine if care by a specialist is needed, and if so, which would be best for you. With most HMOs, a referral is required for a visit to specialists. Depending on your plan, certain services require prior authorization from AvMed.

#### **Access and Availability Standards**

AvMed Primary Care Physicians and Specialists are expected to provide adequate coverage and accessibility for office visits, follow up appointments, telephone consultations and follow up care. The following standards are communicated to our providers and monitored on a regular basis.

| <b>Primary Care Practitioners</b>                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                          |

## Referral/Authorization Process

- **How to get a referral**

A referral is coordinated through your Primary Care Physician (PCP) and the referring specialist/physician. If your health plan requires a referral, your PCP's office will take care of this for you.

- **How to get an authorization**

An authorization is coordinated through your physician and your health plan. It is a formal process requiring a provider to obtain prior approval from the patient's health plan before providing a particular service or procedure.

## Emergency, Urgent Care and Retail Clinic Options

Talk to your doctor about what to do should you need immediate medical care. Be sure to discuss after-hour care, weekend accessibility, and whether there is another number you can call for service. If your doctor isn't available or if an accident or injury calls for immediate attention, you should know your options. Knowing the difference can save you time, money and stress.

- **What is an Emergency?**

If you have an emergency -your condition is life-threatening; loss of consciousness; sudden, sharp abdominal pain; uncontrolled bleeding; complicated fractures- you should go to the nearest hospital or call 911 for emergency medical assistance. You may be responsible for a portion of the cost and non-covered supplies or services (refer to your Benefit Summary for more information). For a detailed definition of an emergency please refer to your Group Medical and Hospital Service Contract (Certificate of Coverage) or Summary Plan Description.

|-------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"><li>• Ear Infections</li><li>• Minor cuts</li><li>• Fever</li></ul> | <ul style="list-style-type: none"><li>• Sudden, sharp, abdominal pain</li><li>• Uncontrolled bleeding</li></ul> | <ul style="list-style-type: none"><li>• Chest Pain</li><li>• Difficulty breathing</li><li>• Loss of consciousness</li></ul> | <ul style="list-style-type: none"><li>• After hours, weekends, when the doctor can't fit you in</li></ul> |

- **Urgent Care Center**

If you encounter a minor medical emergency -sprained ankle, minor cuts or high fever- an Urgent Care Center (UCC) may be a more convenient and often more cost-effective alternative to the emergency room. The facilities handle non-emergency visits during and after regular physician office hours. Most are open seven days a week, with extended hours and do not require an appointment. They are staffed with qualified physicians and offer a wide array of health care services, including radiology, laboratory, pharmacy and procedure rooms for lacerations and fracture care.

AvMed Health Plans currently contracts with a number of UCCs throughout the state. For a complete list of Urgent Care Centers in your area refer to the Provider Directory or visit our Web Site at [www.avmed.org/go/state](http://www.avmed.org/go/state).

- **Retail Clinic Care**

Another option is Retail Clinic Care, staffed by board-certified practitioners (nurse practitioners and/or physician assistants). A clinic can be a convenient and affordable choice offering quality, basic medical care after hours, on weekends and when your doctor's office can't get you in.

- No appointment needed
- Open seven days a week
- Pay your applicable PCP co-payment, co-insurance or deductible

To find a participating clinic near you, access AvMed's Web Site at [www.avmed.org/go/state](http://www.avmed.org/go/state). Follow the instructions under **Find a Doctor** on the home page. AvMed's Member Services is always available to help you. Call our toll-free number listed on the back of your ID card or e-mail us at [members@avmed.org](mailto:members@avmed.org).

### **Hospitalization**

Your AvMed provider must coordinate your hospital stay with AvMed whenever hospitalization or outpatient surgery is required. Certain procedures may require the opinion of a second provider before hospitalization will be authorized for coverage.

### **Prescription Drug Coverage**

If you have Prescription Drug coverage through AvMed, we have a nationwide network of participating pharmacies to serve our members at home and away. To find participating pharmacies in your plan area and the latest list of covered drugs go to the Provider Directory or visit our Web site at [www.avmed.org/go/state](http://www.avmed.org/go/state). For participating pharmacies outside your local plan area, contact Member Services. For complete information regarding your pharmacy benefits and formulary requirements, please refer to your Certificate of Coverage, Summary Plan Description, Prescription Drug Benefits Riders and Addenda.

### **Generics...Real Savings**

One of the easiest ways to keep prescription drug expense down is to choose generic medications. Generic drugs are typically sold at substantial discounts. Many people believe that if something costs more, it is of better quality. In the case of generics, this is not true. The standards of quality are the same for generics as brand-name.

The Food and Drug Administration (FDA) requires that all drugs be safe and effective. When a generic drug product is approved and on the market, it has met the rigorous standards established by the FDA with respect to identity, strength, quality, purity and potency. Generics are very high quality and the cost savings is a benefit to you. A list can be viewed on AvMed's Web Site at [www.avmed.org/go/state](http://www.avmed.org/go/state). Click on **Preferred Medication Lists**, located under the login area at the right side of the home page.

**For a complete list of:**

## **IV. MEDICAL EXCELLENCE**

### **AvMed Physicians**

AvMed is committed to quality health care. We have a broad network of physicians who work hard to keep you healthy. AvMed contracts with physicians who are in private practice and will see AvMed members within designated time frames, depending upon the member's condition. They also agree to certain standards of care for members in regards to wait times and accessibility. To view AvMed's standards, go to the AvMed Web Site at [www.avmed.org/go/state](http://www.avmed.org/go/state) and click on *Find a Doctor*.

AvMed considers Board Certification a significant credential in evaluating physicians. Our network physicians have completed advanced training in an approved hospital residency and/or fellowship program. Requirements for physicians to become Board Certified are established by each specialty board. Our network “Board Certified” physicians are identified within our directory by a star.

### **Hospitals, Facilities & Allied Services**

AvMed members have access to one of the most versatile facility networks in the state. It is made up of hospitals, skilled nursing facilities, diagnostic centers, laboratories, ambulatory surgical centers, home health, urgent care centers, pharmacies, vision companies, durable medical equipment providers and much more. To be a participating provider for AvMed, health care facilities must meet rigorous credentialing standards based on quality. Quality of Care standards are developed by nationally recognized professional organizations. AvMed monitors our provider network closely. We support our providers in their efforts to meet or exceed quality standards as we continue to strive to bring superior benefits to our members..
